THINK! Education Resources

Website: <https://www.think.gov.uk/education-resources/>

Year groups: Nursery – Year 6

Description: THINK! Is the official government designated road safety campaign. They work in school up and down the country to educate children of all ages about the possible dangers when out on the roads. The resources that relate to our children are in the groups labelled: 'Age 3-6 resources' and 'Age 7-12 resources'. The parts that would be most useful at home are the slides, films and games. All will enhance your child's road safety knowledge.

BMW Education - Safe on the streets

Website: <https://bmweducation.co.uk/safe-on-the-streets/>

Year groups: Year 3 – Year 6

Description: The BMW Education – Safe on the streets resource is divided into three online modules. The three modules, on the road, in car safety and active travel are designed to enhance children's knowledge of things such as Green Cross Code, importance of seatbelts and spotting hazards when being active outdoors. There are also games, quizzes and activity sheets which the children can access.

British Cycling

Website: <https://readysetride.co.uk/>

Year groups: Nursery – Year 6

Description: This resource comes from British Cycling and is all about children learning to ride their bikes and being more confident on them. It includes lots of fun games to get your child pedalling. You can even download their app so you can do it while pedalling in the garden.
