Dear Parent/Carer

Plastic Pollution – Art and Design project

In week 14 (w/c 22 June) of our home learning plans, your child will be starting a new topic called 'Plastic Pollution'. Your child will be designing and creating a water themed sculpture. To support your child with this, we are asking that you start collecting plastic resources that they could use for this. Items may include plastic bags, milk bottle tops and plastic bottles.

We would very much appreciate your support with this task and would like to thank you for all your effort so far. If you have any questions, please don't hesitate in asking us via your child's class email account.

Yours sincerely

H Corbishley L Parnell
